

June 5-6, 2008

WILDFIRES & "WEEDS"

Idaho Falls

Hours: 8:30 am – 4 pm each day. Location: Bonneville County Extension Office 2925 Rollendet Avenue

(This is a separate credit from other Project Learning Tree workshops!)

Investigate two of the hottest environmental issues—wildfires and invasive species. It's hard to go a week without hearing a news report about either of these topics. Learn more through activities, speakers and field trips. Get great information and materials to use with your students!

Materials: Receive the NEW & IMPROVED PLT PreK-8th Grade Activity Guide and/or the PLT Forest Ecology Module for High School. We'll also experience some U.S. Forest Service's *FireWorks* activities!

Credit: You may earn one graduate professional education credit (for recertification and moving on pay scale) from your choice of BYU/I (\$35), ISU (\$50), UI (\$60) or NNU (\$60). Credit registration and payment will take place during the workshop.

To SIGN UP: Send \$20 workshop fee, made out to PLT, to Deycie Luke, EIVIC, 630 W Broadway, Idaho Falls ID 83402 or PLT State Office at the address below. Please include your name, address, phone number, email and grade level/subject(s) you teach. The fee is refundable if cancellation occurs at least one week prior to workshop. When you sign up, we will send you a memo with detailed workshop information.

Questions? Contact Deycie Luke at Deycie_Luke@blm.gov, 208-523-1012 or Michelle Youngquist, PLT Coordinator at plt@idahoforests.org, 208-334-4061.

Project Learning Tree is an award-winning education program that uses forests and trees as "windows" on the world. By attending this workshop, you receive an activity guide and the PLT module, "Forest Ecology" with good information and fun educational activities to help your students learn how to think not what to think about the environment and related issues.
