

# How My Favorite Sports Use Trees

Without trees I couldn't play my favorite sports.

Baseball is very fun and I play it a lot. It uses wooden bats, a wooden scoreboard and the benches and dugout are made out of wood. Even the baseball has cork inside the middle made from a tree!

Basketball and volleyball both use wooden floors. Skis are made out of wood and so are snowboards. Jumps and skateboards both use wood from trees. Tennis even

uses wooden raquets.

These are some  
of the sports that  
use wood from trees.  
I couldn't play these  
sports without trees.  
I sure love trees!
