

Best Use of Idaho Wood Architectural Design Awards

U of I Student Award Criteria: Best use of Idaho wood in an architectural design that demonstrates a creative solution and knowledgeable application.

Competition Jurors:

Steven Rainville, Olson Kundig Architects

Ken Gallegos, American Institute of Architects, Idaho Chapter

Jeff Filler, U of I College of Art and Architecture

Marc Brinkmeyer, Idaho Forest Group

The Best Use of Idaho Wood Architectural Design Awards is a partnership between the Idaho Forest Products Commission, American Institute of Architects Idaho Chapter and the University of Idaho College of Art and Architecture. The objective of the partnership is to encourage, recognize and support the creative and innovative use of Idaho wood in architectural design.

Goals of the partnership include:

◆ To provide hands-on opportunities for Idaho architects and University of Idaho architecture students to learn about Idaho forests, sustainable forest management, wood products and manufacturing.

◆ To foster learning experiences about the energy efficiency and the environmental and structural benefits of wood.

◆ To establish annual awards events that recognize excellence in architectural design using Idaho wood to both professional Idaho architects and U of I architect students.
